

Fezile Dabi

District Municipality

Departmental SDBIP
2016/17 Financial Year

COMPONENT 3 - Quarterly Projections of Service Delivery Targets and Performance Indicators for each Vote

In terms of Measurable performance objectives include service delivery targets and other financial and non-financial indicators. This SDBIP therefore shows monthly projections of revenue by vote in addition to revenue by source.

While components 1 and 2 of the top-layer requires projections of budgeted amounts for revenue and expenditure, component 3 presents non-financial measurable performance objectives in the form of service delivery targets and other performance indicators.

The focus here is therefore on outputs, and not inputs or internal management objectives. The service delivery targets relate to the level and standard of service being provided to the community and include targets for the reductions in backlogs of basic services where applicable. The requirement for service delivery targets is consistent with national government policy requiring the public sector to be able to measure service delivery outputs and outcomes in addition to inputs (expenditure).
