(29.2) When functionality is included as a criterion in the Evaluation of bids, the evaluation of the bids shall be conducted in the following two stages:

Firstly: the assessment of functionality shall be done in terms of the evaluation criteria and the minimum threshold as were stipulated in the invitation for bids. A bid shall be disqualified if it fails to meet the minimum threshold for functionality and shall be regarded as acceptable if it achieves the prescribed minimum qualifying score for functionality as per the bid invitation

Secondly: only the qualifying bids will be evaluated in terms of the 80/20 or 90/10 preference points systems, where the 80 or 90 points shall be used for price only and the 20 or 10 points are used for specific goals

29.3 The amendment of evaluation criteria, weights, applicable values and/or the minimum qualifying score for functionality after the closure of bids should be prohibited as this will jeopardize the fairness of the Supply Chain Management system of the municipality.

29.4 The following formula must be used to calculate the points out of 80 for price in respect with a Rand value equal to R1 to or less than R30 000 and above R30 000 and up to a Rand value of R50 million, inclusive of all applicable taxes:

$$P_s = 80 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

• *Where:*

- P_s = Points scored for price of tender under consideration;
- P_t = Price of tender under consideration; and
- P_{\min} = Price of lowest acceptable tender.

29.5 The following formula must be used to calculate the points out of 90 for price in respect to a tender with a Rand value above R50 million, inclusive of all applicable taxes:

$$P_s = 90 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

- *Where:*
- P_s = Points scored for price of tender under consideration;
- P_t = Price of tender under consideration; and
- P_{\min} = Price of lowest acceptable tender.

29.6 Once the points for price has been calculated, preference points for specific goal for both the 80/20 and 90/10 preference systems shall be determined in the Preferential Procurement Policy.

29.7 The maximum preference points that may be allocated for both the 80/20 and 90/10 point systems in respect of the SPECIFIC GOALS shall not exceed 20 and 10 respectively.

29.8 The Accounting Officer shall exercise due care to ensure that a bid is not disqualified from the bidding process solely because the bidder does not submit meet the evaluation criteria on specific goal.

29.9 The points scored for price must be added to the points scored for Specific goals to obtain the bidder's total points scored out of 100.

29.10 When calculating comparative prices, unconditional discounts must be taken into account for evaluation purposes; and conditional discounts must not be taken into account, but should be implemented when payments are effected.

29.11 A procurement contract shall be awarded to the bidder who scored the highest total number of points in terms of the preference point systems.

29.12 In the event that two or more bids have scored equal total points, the successful bid must be the one that scored the highest points for specific goals.

If two or more bids have equal points, including equal preference points for specific goals, the successful bid must be the one scoring the highest score for functionality if functionality is part of the evaluation process.

29.13 In the event that two or more bids are equal in all respects, the award must be decided by the drawing of lots

- Bids that fail to achieve the stipulated minimum threshold for local production and content must be disqualified

Second stage - Evaluation in terms of the 80/20 or 90/10 preference point systems

- Only acceptable bids must be evaluated further in terms of the 80/20 or 90/10 preference point systems prescribed as prescribed in Preferential Procurement Policy.
